AVTRON POWER SOLUTIONS

REMOTE KIT
PN Sheet

Cx Automation

The Avtron Rx Remote Kit comes with a rugged case and foam to protect kit components.

Why invest in a Remote Kit?

- Provides everything needed to communicate with 1 to 250 load banks*
- Software is pre-loaded and ready to work on a rugged tablet
- Components have been tested and proved for over 10 years

Extended Remote Kit

- Allows Rx controllers and SIGMA controllers to operate on the same network**
- Control load banks from up to 999 FT with the included PoE injector and PoE extenders***

BASIC Remote Kit Item Number	1600985-001
EXTENDED Remote Kit Item Number	1600985-002

Avtron Rx Commissioning Automation Remote Kits
